

CONTRACTOR REGISTRATION

Our partners at SAFEbuilt have launched online permitting to expedite the plan review and building permit process. All Contractors must complete a Contractor Registration form and submit to infomn@safebuilt.com . Once you are added to the system you will receive an email from CommunityCore Account Setup. Click on the link in the email to finish setting up your account. (Please note that the link expires after 5 days and that sometimes these emails end up in your junk folder.) Online permitting is in the process of being implemented in the following cities; please indicate which cities for which you would like to be added as a contractor.

St. Charles

Zumbrota

Pine Island

Lake City

Hayfield
